PROJECTS

Amazon Clone

- Developed a Amazon clone using HTML and CSS, replicating its UI and design.
- Developed responsive design and user-friendly interface to mimic the original site's functionality, including product listings, shopping cart, and checkout process.
- Integrated interactive product card to show different product suggestions and mainly used flex-box property.
- Tech Stacks - HTML, CSS, Javascript

Personal Portfolio Website

- Developed a personal portfolio website using HTML, CSS and Javascript.
- Developed responsive design Seamlessly blending creativity with functionality and experiences but also provides visitors with an engaging and intuitive user experience.
- From interactive elements powered by JavaScript to sleek and responsive design implemented with CSS.
- Tech Stacks - HTML, CSS, Javascript

EXPERIENCE

Codsoft Pvt. Ltd.   March 2024

Key responsibilities:
- During my internship, I successfully completed three assigned tasks, showcasing my ability to manage multiple responsibilities simultaneously.
- Implemented responsive web design techniques to ensure optimal viewing and interaction across various devices and screen sizes to build dynamic and interactive components, such as listings, Pop-up, forms and Cards using different types of animations .
- Tech Stacks - HTML, CSS, Javascript
